Hi guys,

does anyone know why this area is dangerous? Is it referring to road condition?

On M36/C14 (Guab/Gaub Pass) between coordinates: S 23.47341 E 15.77274 (Dangerous Area South,icon) S 23.49225 E 15.76581 (Dangerous Area North,icon)

Regards  
Sonja

Sonja,

Lots of vehicle accidents in this area, you drive in the desert and can see for miles but suddenly you come upon the Gaub pass with sharp corners and high drop-off to the river below, if your speed is too high and you are caught off guard you fall off the road to the river below.

Roads surface is normally good but the road is narrow here and you will always find oncoming vehicles cutting corners or even worse, people stop in the road to take pictures

Same goes for the Kuiseb pass

Groete
