Directions for Self-Drive Guests

Please note that you should always stick to the speed limit as radar is used extensively in Namibia and Botswana. Be especially alert in Botswana for 60km/hr limits in the middle of nowhere, they are used by the Police extensively!

Also note that if possible have the lodge that you are visiting call us when you leave so that we have an idea of the time you arrive! In any case there will be someone waiting at the Children's Home.
